OUR OPINION RIVIERA LOISIRS

Protected nature crystal clear waters

Don't hesitate to go around the island, discover the Batéguier pond, or the bird observatory... a total of 7 kilometers of hiking, in a protected nature filled with pines and eucalyptus.

Rest in one of the creeks: Sainte Marguerite Island is known for its magnificent fine sandy beaches, its creeks and its crystal clear waters.

The Sea Museum and its Fort Royal

To the north of the island, Fort Royal houses the Museum of Sea. This cultural place will make you discover the wrecks of shipwrecked ships or even fragments of Roman wall paintings, preserved in the museum. Fort Royal was used as a state prison. You will see the cell of the prisoner nicknamed the Iron Mask with its walls covered by the paintings of Jean le Gac. Try to unravel the mystery of the Iron Mask, whose identity has remained secret.

The ecomuseum submarine

100 meters from the coast of Île Sainte Marguerite, opposite the Maison Forestière, discover the underwater ecomuseum of Canes. This museum is the first underwater museum in France. With your masks and snorkels, you will observe 6 exceptional sculptures 2 meters high, by Jason Taylor in the heart of the Mediterranean. The project makes the site conducive to underwater life.

Fireworks
