ASTRORAMA

THE TRINITY - NICE

The observatory

from the sky

The Astrorama invites enthusiasts and amateurs, children and adults to raise their heads, contemplate and marvel at the starry sky. This is a great outing idea that gives you the opportunity to discover astronomy and observe the night sky in a friendly and educational environment.

Discover this hobby that puts stars in your eyes!

ASTRORAMA

Excellent evening spent at the astrorama! We arrive at a sublime site, the air is fresh and sweet. Sandwiches are offered on site, children can shake around freely. The facilitators are the teachers we would all have loved to have at school. What a marvel to see with your own eyes the rings of Saturn, its satellites! During this evening, there was nothing but wonder!

HELEN B.

Evenings open air

Based on space and astronomical news, the “Open Sky” evenings allow everyone, young or old, to increase their scientific knowledge, but also to discover how to observe the sky with the naked eye and with a telescope. The open-air evenings are suitable for all levels of knowledge.

Evening Program

Open sky

The entertainment program is defined according to the weather conditions, the possible theme of the evening, the ephemeris... On certain evenings you can attend a planetarium session, observe the Moon, understand the phenomenon of the seasons thanks to the gnomon, learn to spot the main constellations of the sky of the northern hemisphere...

Activities for everyone

The Astrorama also offers “general public” activities during the day or evening as well as introductory astronomy courses for children.

- “Initiation to Observation” evenings from 10 years old.
- “Star Shows” evenings from 6 or 12 years old depending on the evening.
- Wednesday Astro Meetings for ages 12 and up.
- Astro Sundays from 6 or 12 years old depending on the afternoon.

Panorama exceptional

The Astrorama is located on the heights of the Col d'Èze at an altitude of 650 meters, in the Parc de la Grande Cornice. This place dedicated to scientific mediation offers an exceptional panorama of the coast, from Cap Ferrat to the Lérins Islands.

Schedules

“Open Sky” evenings last 4 hours: From April to October:

- from 7 p.m. to 11 p.m.

From November to March:

- from 6 p.m. to 10 p.m.

A short 30-minute break in the middle of the evening is organized so that participants can eat, either with their own picnic or in ordering sandwiches when booking.

Prices

PRICES FOR "OPEN SKY" EVENINGS

- Adults from 19 years old:12.50 euros.
- Children aged 6 to 18:10.00 euros.
- Students:10.00 euros.
- Children under 6 years old:free.

The ticket office opens 15 to 20 minutes before the evening starts. You can book online.
