# THE UNDERGROUND

SAINT-VALLIER-DE-THIEY

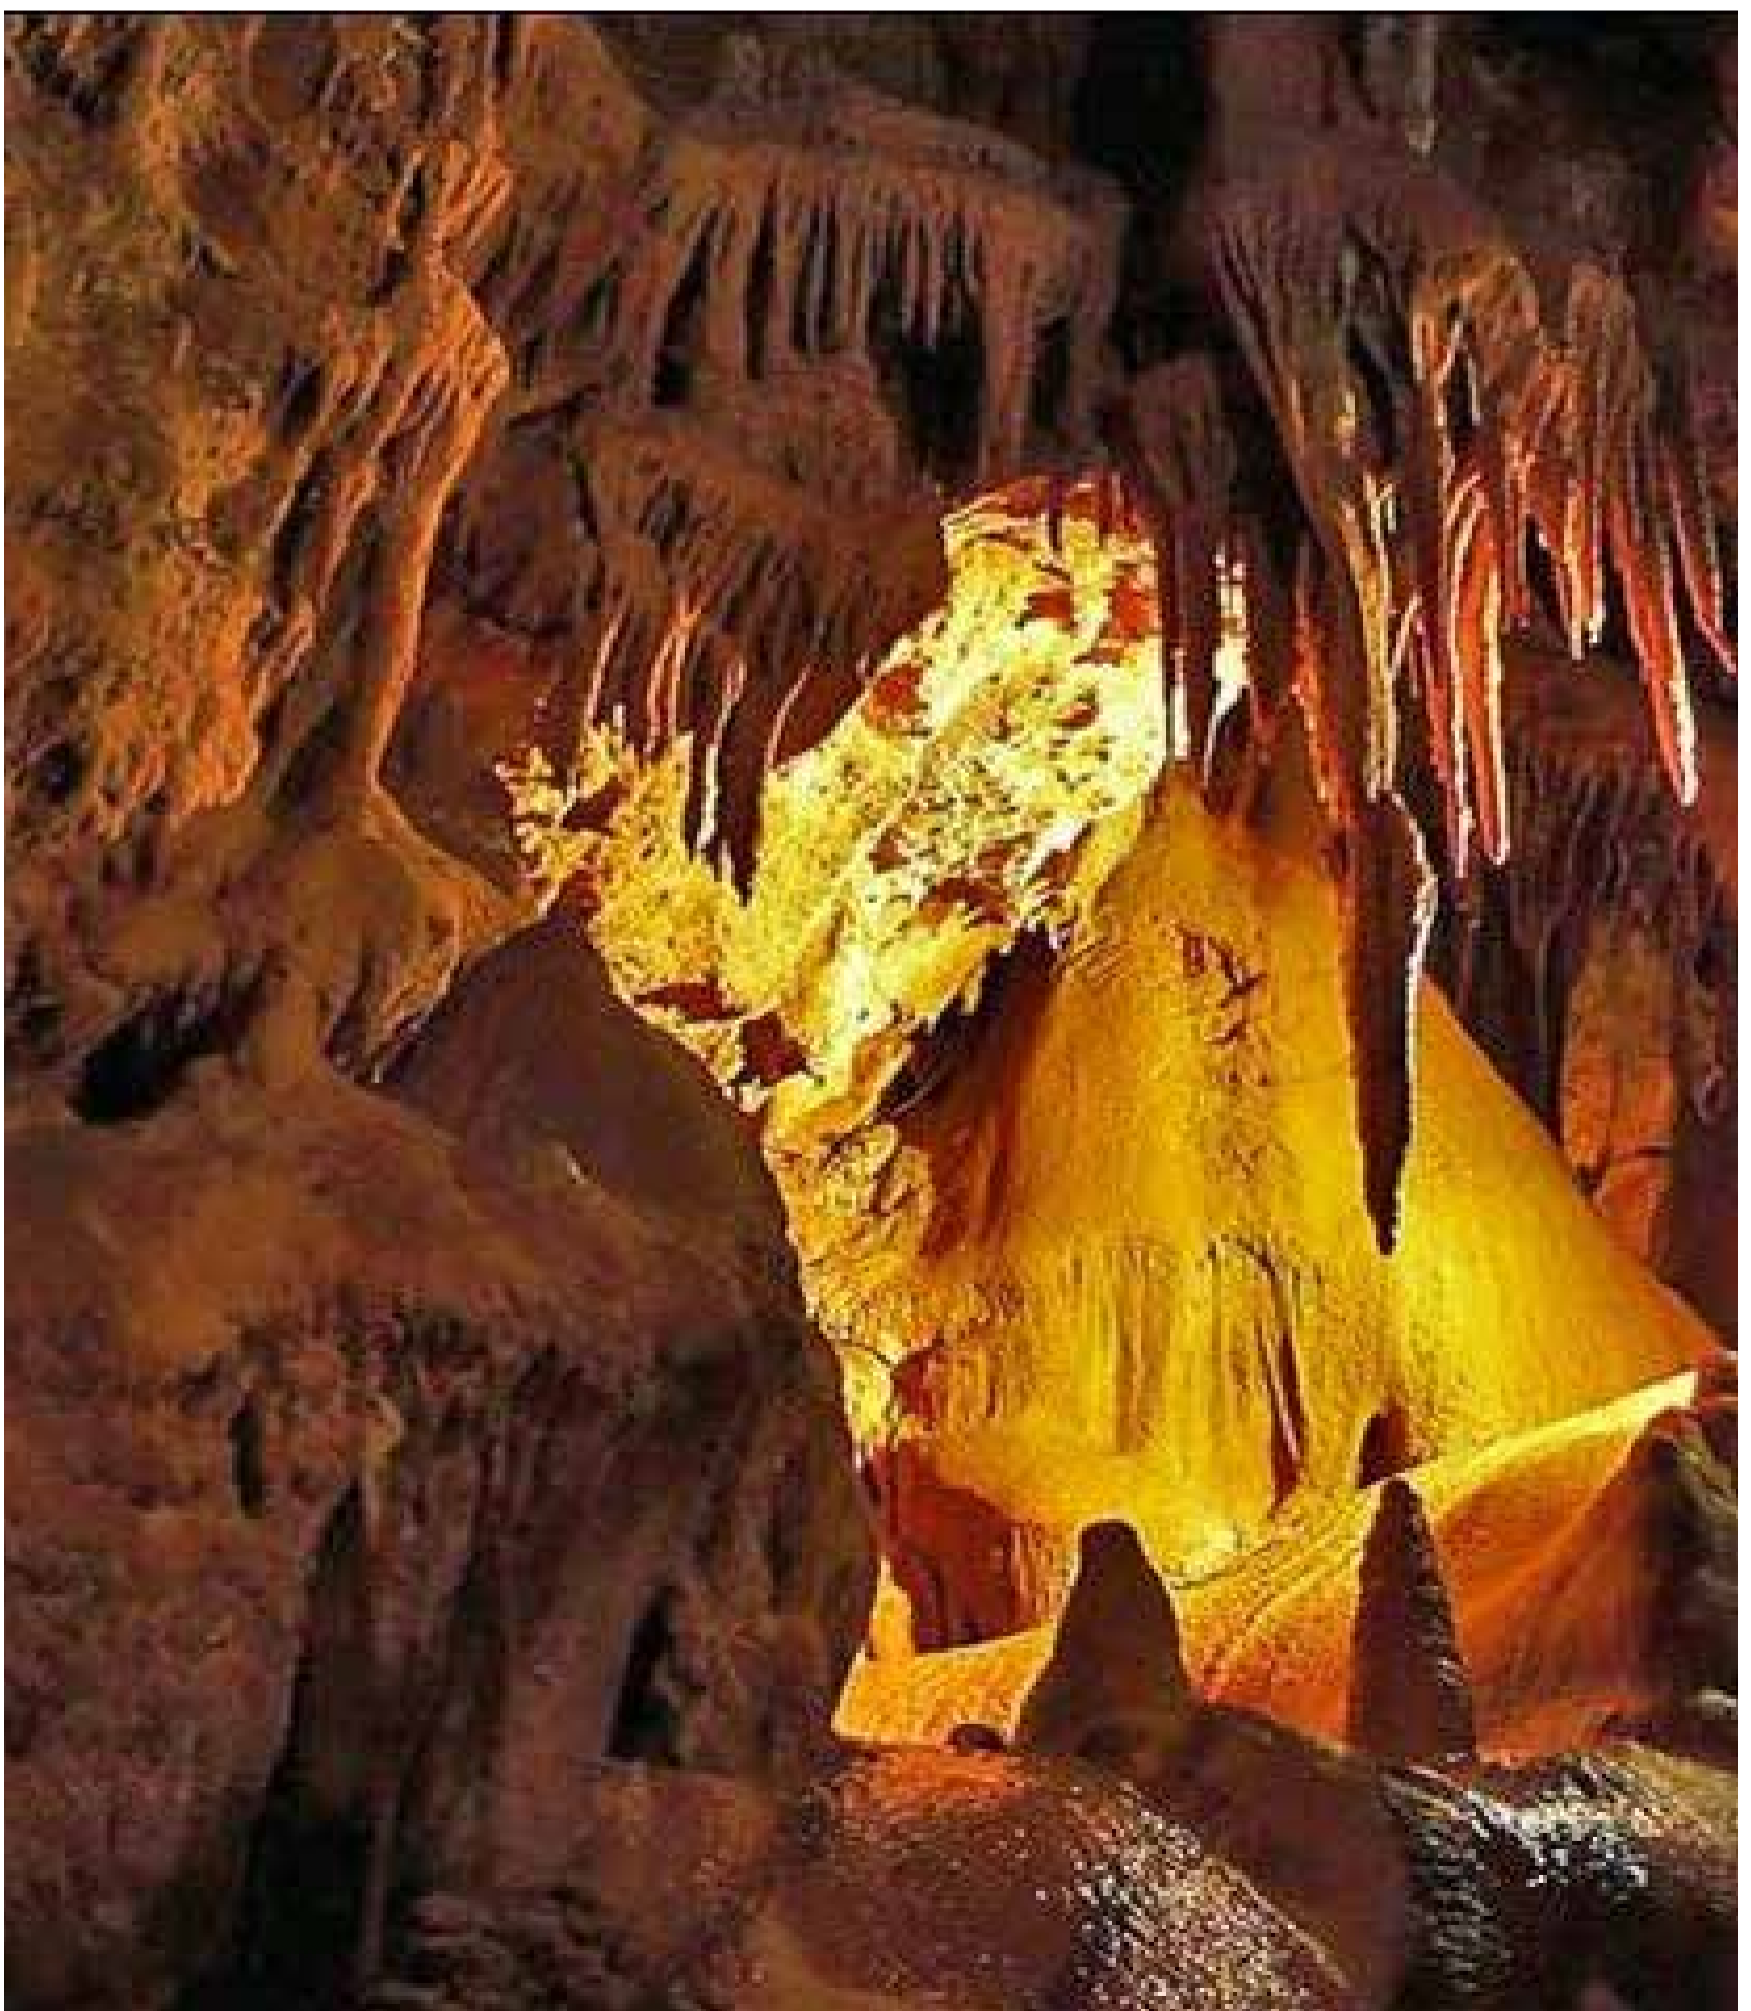

# The cave the Prealps

In the heart of the Préalpes d'Azur Regional Natural Park, the cave invites you to discover the wonders of the underground world. Beyond the beauty of its route, the surface section is brimming with secrets. Located within a protected natural park, the site shelters a wide variety of flora and fauna. A rich historical and cultural heritage awaits discovery, including troglodytic sites, dolmens, tumuli, a chapel, an old bridge, and a mill.

# A gem underground

The underground tour of the cave extends for 700 meters and is 60 meters deep. It lasts approximately 45 minutes and allows visitors to discover a series of underground chambers, stalactites, stalagmites, calcite cascades, and other formations.

spectacular geological features. There are also underground lakes and an underground river.

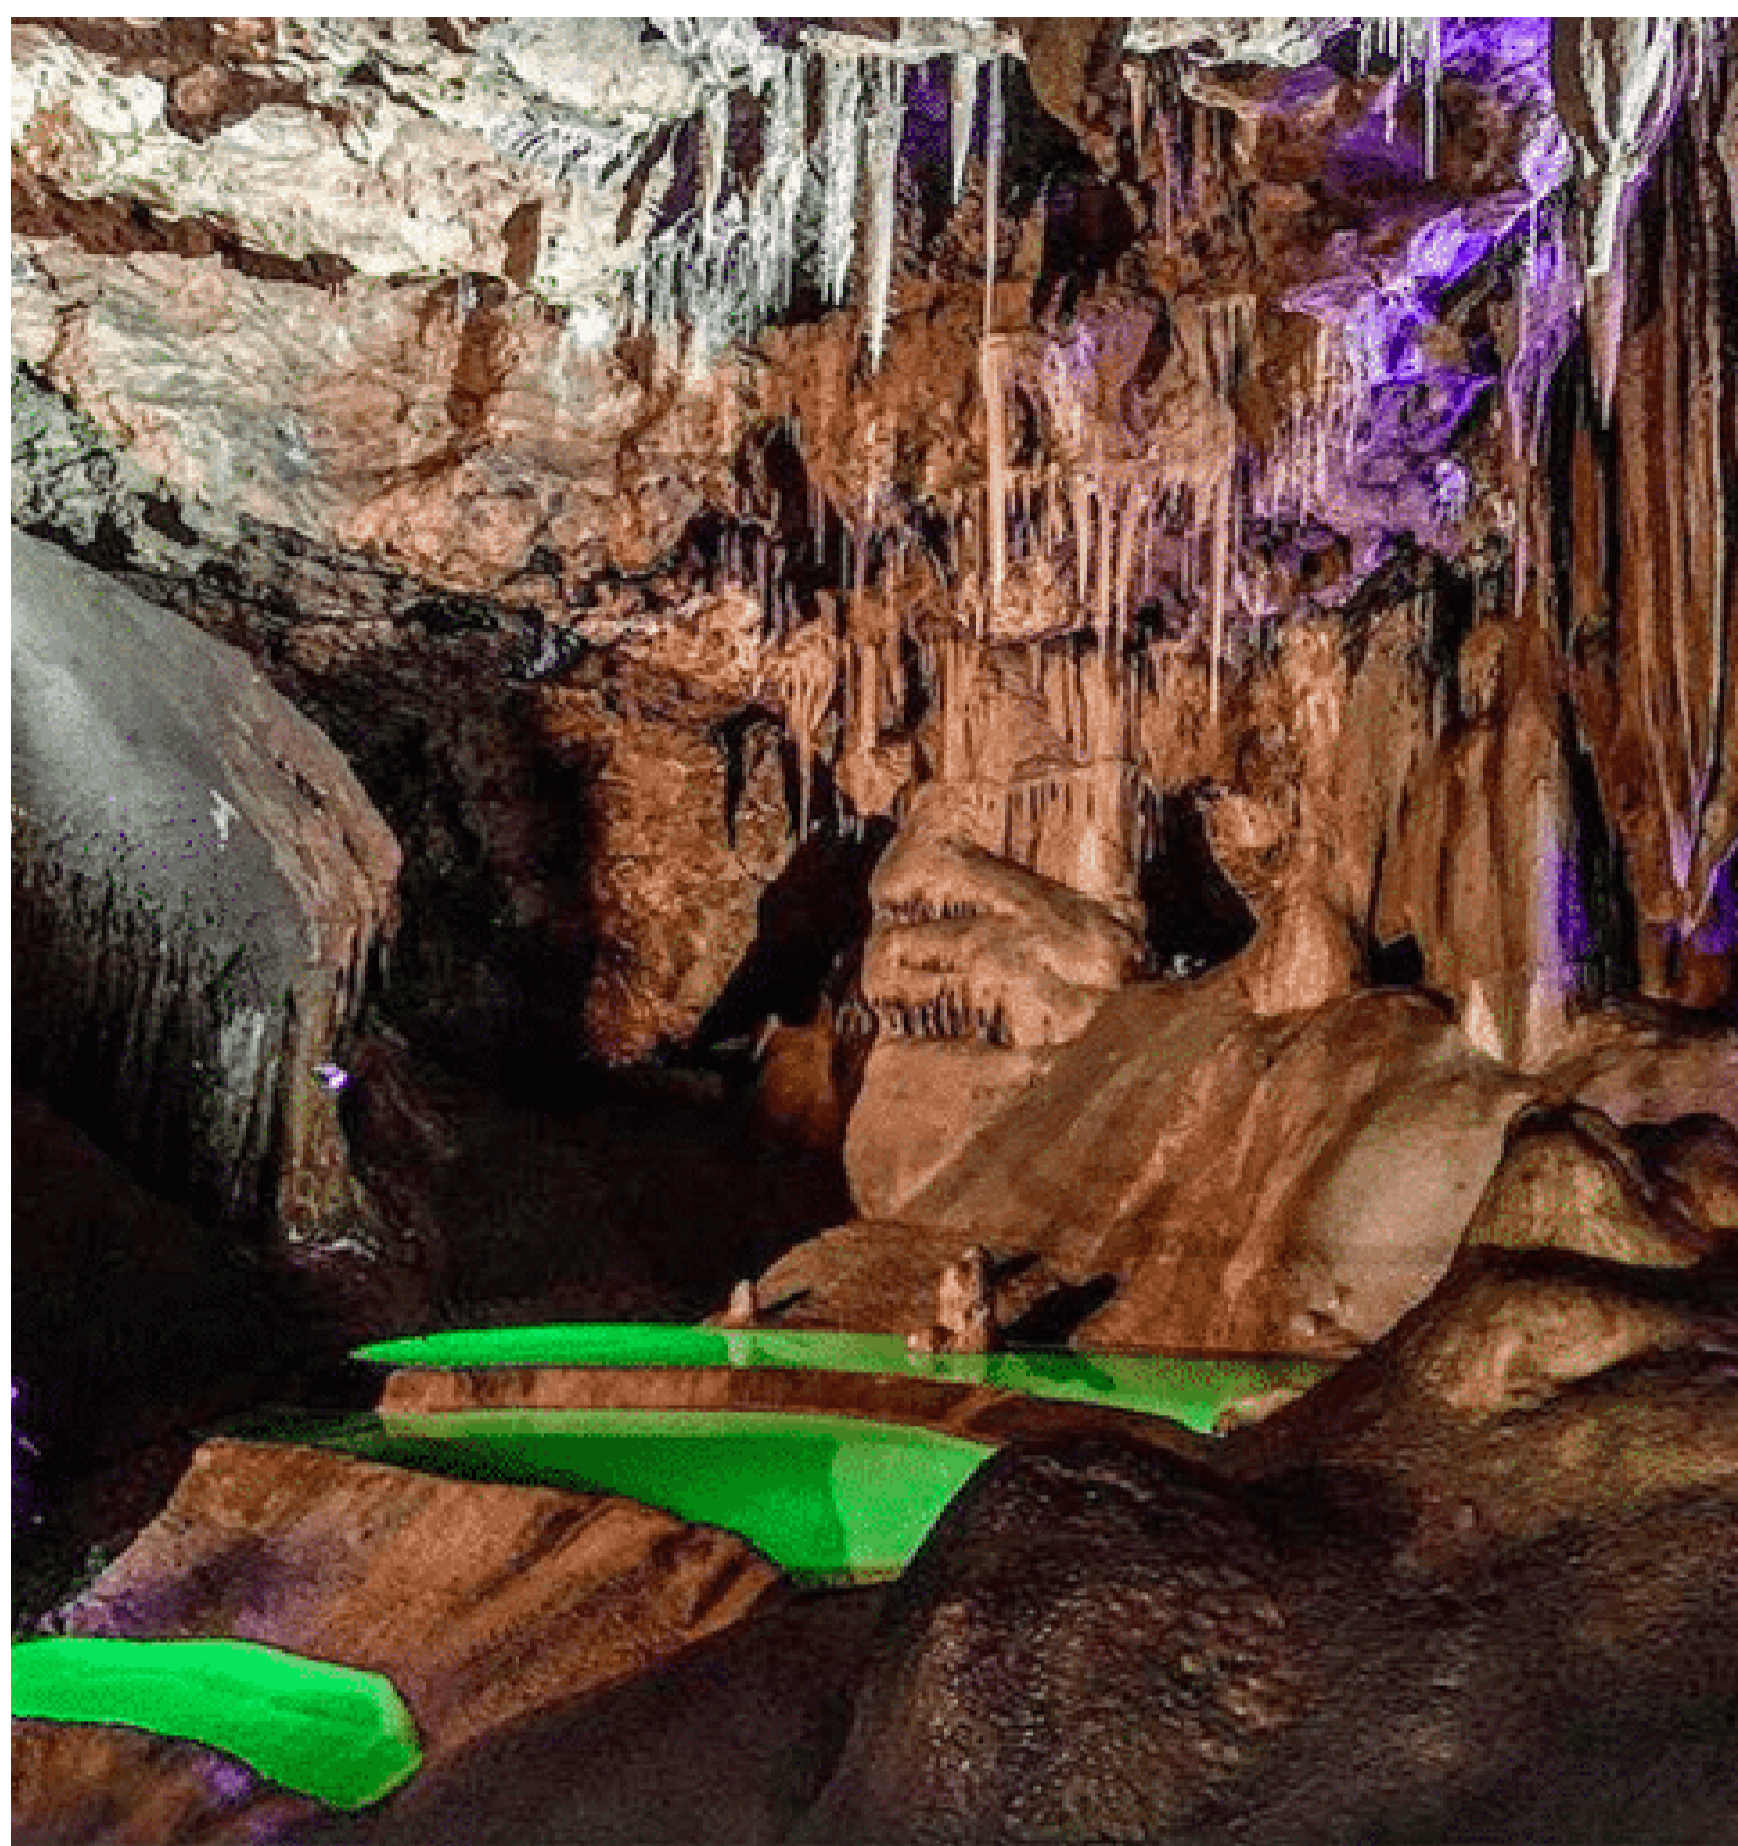

# THE UNDERGROUND

”

If you are passionate about the wonders of the underground world or if you are simply looking for an original activity to do in the region, the Souterroscope of Saint-Vallier-de-Thiery is a visit not to be missed.

**THE RIVIERA LEISURE TEAM**

## The subterroscope sound and light show

The Souterroscope is a sound, image, and light show. It is therefore set to the rhythm of music. songs and commentary (in French, German, English or Italian) projected by hundreds of spotlights they turn on and off throughout the journey to create another dimension, magical and poetic.

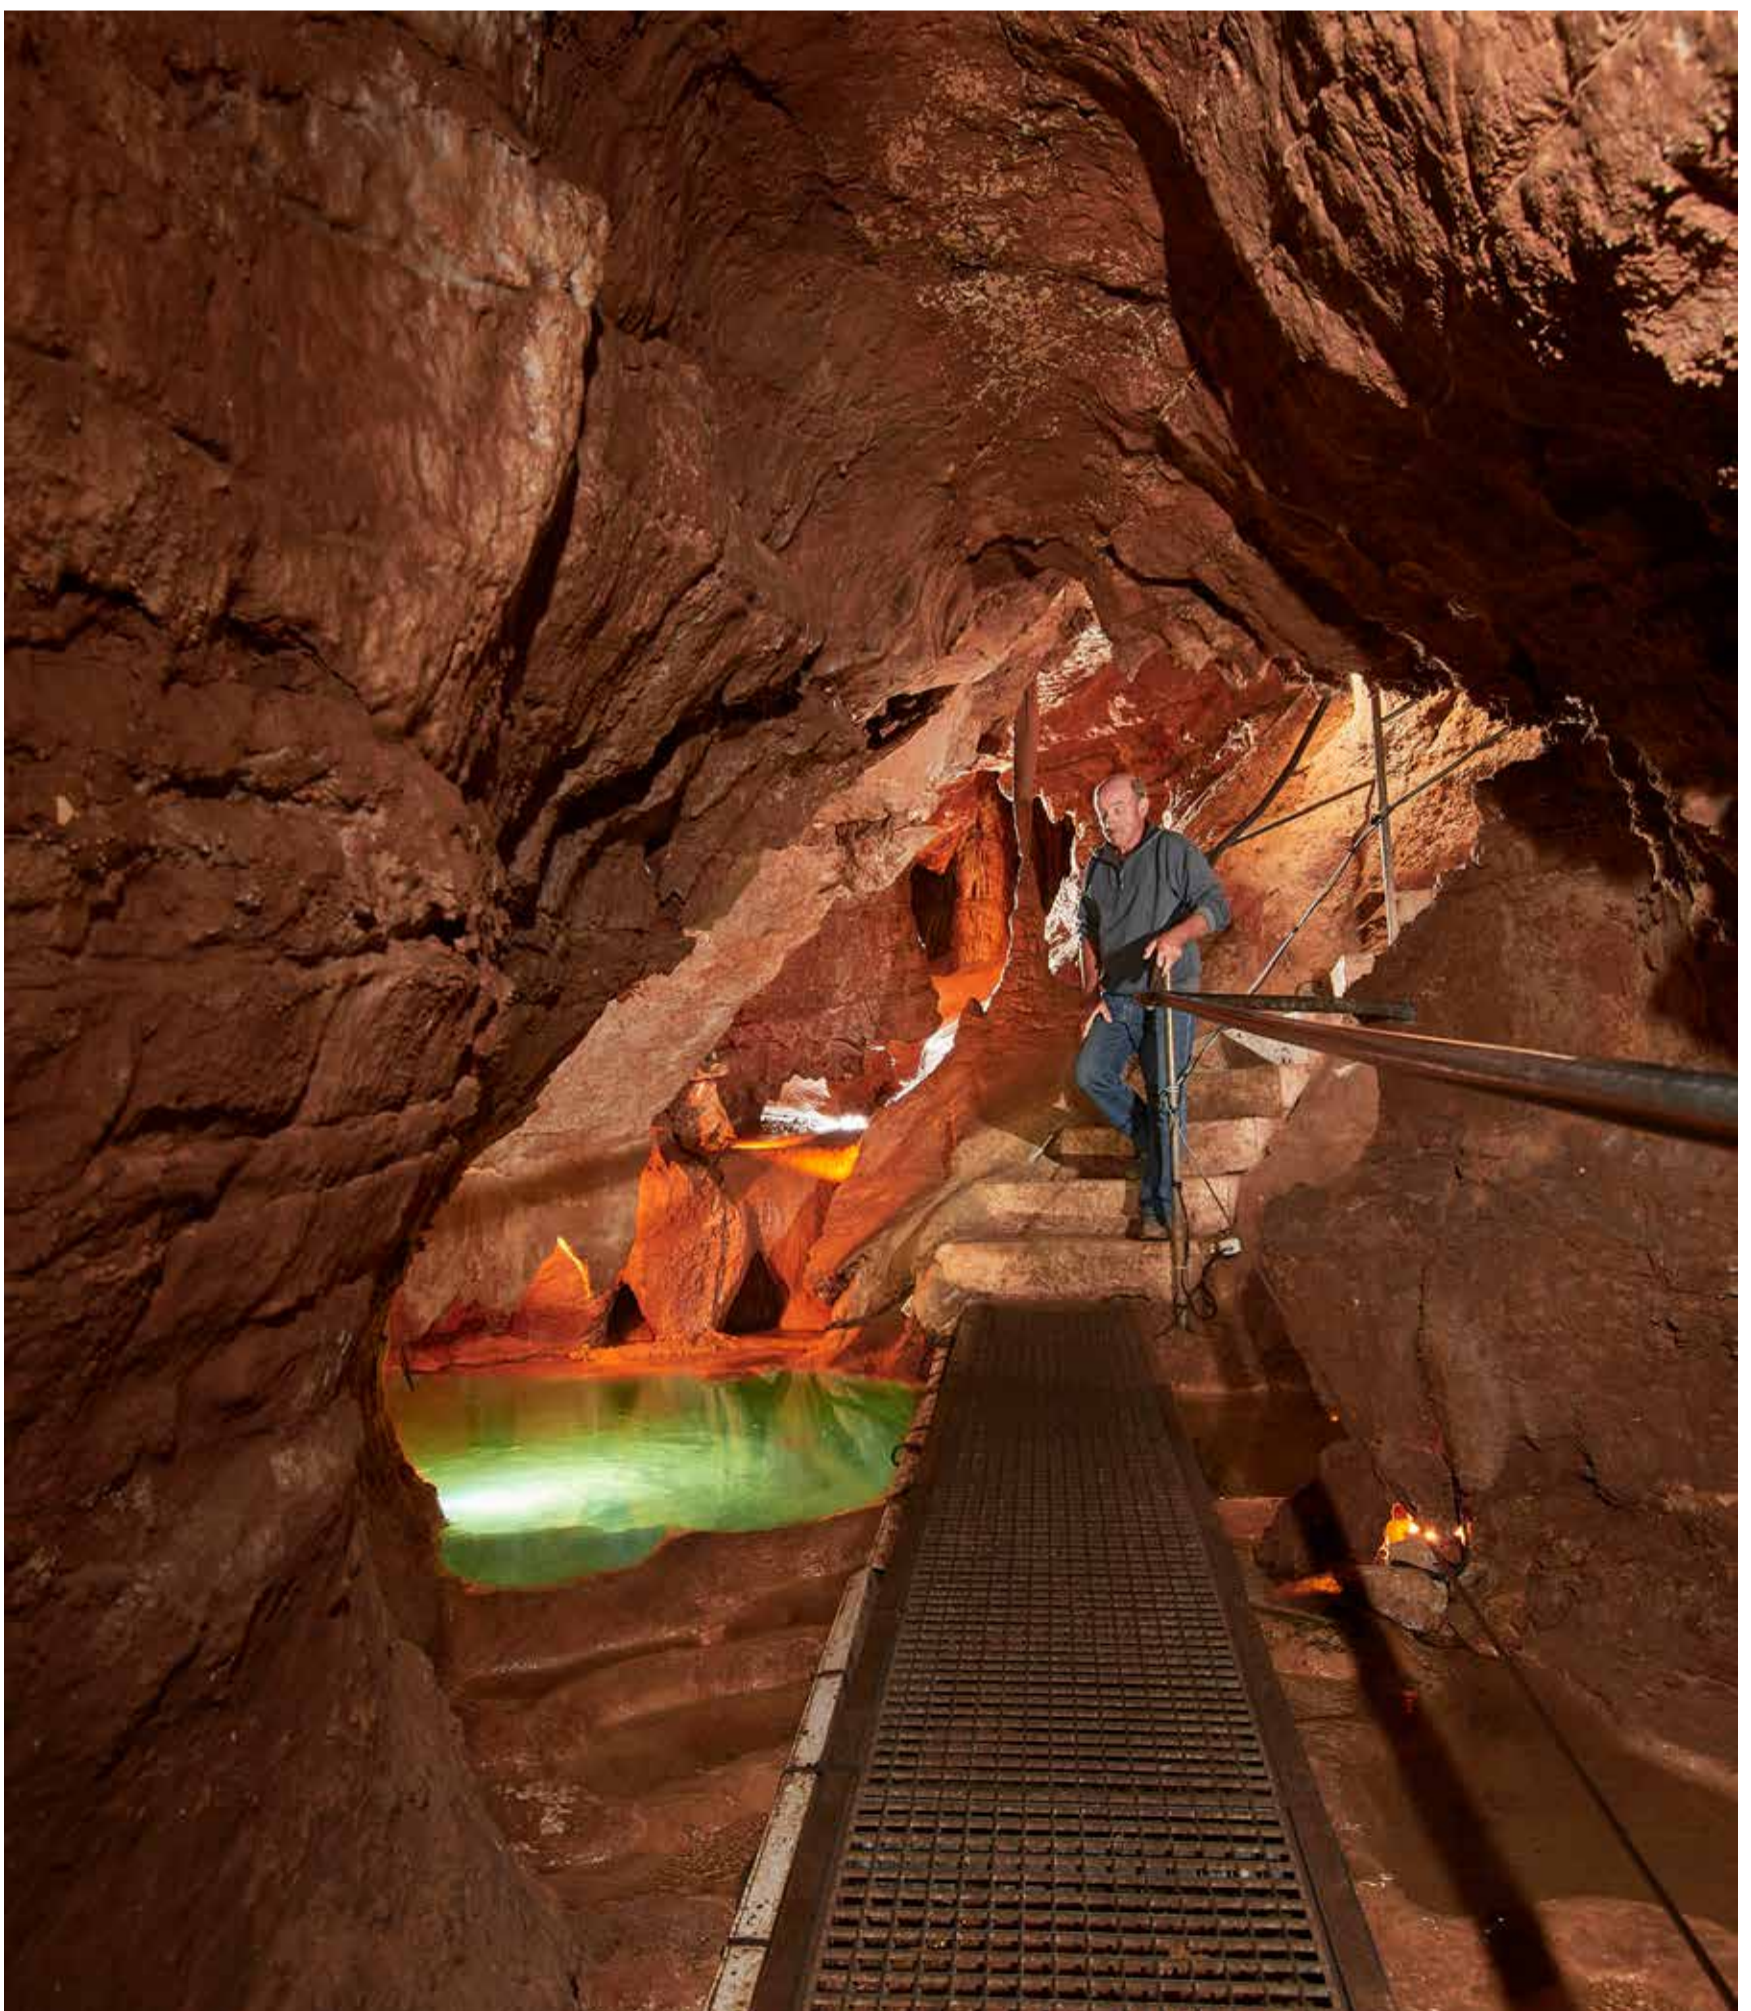

## Educational visits and fun

At “Baume Obscure”, you can also enjoy fun, recreational, and educational visits for a pleasant time with family or friends. Self-guided visits and visits combined with a treasure hunt are what make Baume Obscure unique. This activity combines discovery, learning, and fun. A special edition of the forest treasure hunt is available.

# Guided tours with a speleologist

For those who love guided tours, the cave offers the services of a speleologist or a naturalist to discover the Baume Obscure site from the most varied angles, on the surface as well as underground: history of the discovery and development of the cave, fauna and flora, geology, hydrology, minerals and fossils, bats and cave life.
